NOT A RELIEF FUND. Americans Looking for a Better Distribution.

New York, June 12 .- The committee of 100 on Indian famine relief has formed a committee for the distribution of relief funds in India, called the Americo-Indian relief committee. nine members are: Wm. B. Fee, U. consul at Bombay, India, chalrman; Dr. Robert A. Hume, executive secre-tary; three business men of India, American or European, and one native Indian, three missionaries, one being European. The last \$25,000 cabled to Inlia by the committee of one hundred has been put at the disposition of this committee in Bombay.

The reasons for forming the commit-tee are that the national India famine charitable relief fund, at whose head is Sir Francis MacLean, chief justice of Bengal, appears, notwithstanding its splendid work, to have two limitaions, when regarded from America's point of riew. First, from its distribution of relief funds through government officials acting non-officially the popular im-pression is likely to be gained in India that the relief is substantially govern-mental, and by distribution through a separate committee it can be made clear to the people that America has a share in the bestowals. famine distress is worse in the hundreds of native states where the government's agencies for charitable relief are furthest from being complete.

On the other hand, the interdenominational missionary relief committee is composed solely for American mission-aries and thus, while its work is beyond to the scope and plan of the committee of one hundred, which is a civic agency meeting free offer of its services in the work of forwarding aid from favored America to famished India.

The America-Indian relief committee it is said will represent all interests and embody all elements. It will employ the best agents and agencies at its command. It is within the famine area. It will have admirable facilities for carrying on its relief work in the native states. It will be free to rescue the perishing children, the women, the sick and any who may be neglected. Whatever it dispenses will be recognized as completely non-governmental, and as coming to the sufferers from sympathizing America. While the committee of 100 servers are suffered to the sufferers from the committee of 100 servers are suffered to the sufferers from the committee of 100 servers are suffered to the s mitte of 100 sends the funds intrusted to its free disposal to the Americo-Indian relief committee, it will still faithfully carry out the expressed wishes of all donors.

### **BOXERS ROUTED** IN FIRST FIGHT

British Marines Have a Running Battle with Chinese Rebels.

MORE FOREIGNERS TO LAND

Russia, England and Japan Preparing to Send Troops-Russia May Take the Lead.

[Early Dispatches.]

London, June 13, 5:20 a. m.—Sixteen British? marines reconnoitering in advance of the international column marching to Pekin, fought and chased 2,000 Bxoers Monday, killing twenty or thirty. A correspondent accompanying the column, in a dispatch dated Tien Tsin, June 12th, via Shanghai, June 13th, 6:15 a. m., says:

"While the working parties, accompanied by a patrol of sixteen British marines, commanded by Maj. Johnson, were repairing the line Monday afternoon, eight miles beyond Lofa, they encountered small parties of Boxers who were destroying the line. The Boxers moved away from the advancing marines and apparently dispersed into the country, leaving the rails moved and the sleepers burning.

"The marines, when two miles in advance of the first train near Lang Fang, suddenly perceived Boxers streaming from a village on the left. It was estimated that they numbered 2,000, some of them being mounted, and they were trying to get between the marines and these sent the stream of the strea marines and the train. Most of them were armed with spears and swords. A few had firearms, which they handled awkwardly.

"The marines retreated, keeping up a running fight for over a mile, killing

The Boxers fled, and the Europeans, following up their success, cleared out the villages. The total loss of the Boxers is estimated at forty killed and wounded. tacking the Catholic convent there. The situation is critical and the officials are evidently inactive, The United States warships Nash-

ville and Monocacy are reported at

The correspondents at Tien Tsin, Shanghai and other treaty ports throw sidelights upon the situation. According to one dispatch from Tien Tsin it is understood there that the foreign ministers will insist, as soon as fresh bayonets arrive at Pekin, upon the removal of the anti-foreign advisers of the dowager empress and upon the substitution for them of counselors friendly to western civilization.

The English at Shanghai are afraid that Great Britain has been deceived and that the whole business will have to be gone through again. Russia's alms, they argue, are not understood, and Russia and France are apparently not working in the same spirit as the other powers. Five thousand Rus-

sians are ready to land.

A telegram from Yokohama, dated Tuesday evening, says that the Japa-nese government has ordered four more warships to proceed to Taku, and 4,000 men of all arms are under orders barkation. The dispatch says the Japanese government "trusts the pewers will not misconstrue this action. The Japanese press is urging vigorous

The Shanghai correspondent of the Times, telegraphing Tuesday, says: "The Japanese minister is pressing for recognition of a Japanese sphere of in-duence, to include the provinces of Che Kiang, Fo Kien and Kiang Si."
The Hongkong correspondent of the

Times, writing yesterday, says: "The admiralty have engaged a transport to take 900 troops to Tang Ku. The sailing date has not been itxed."

The only bit of information which the British war office has made public regarding the situation since it became that the summer residence of the Brit-ish minister in Pekin,Sir Claude Mac-Donald, has been burned, Considerable contracts for the Chi-

nese have been placed with the Bir mingham arms factories, though whether for the Chinese government or for the Boxers is not disclosed. Insurance rates for Tien Tsin have been raised to 5 shillings per £100.

New York, June 13.-A dispatch to the Tribune from London says: There is a general feeling in diplomatic circles that the European powers have been united by the dismissal of Prince Ching, and that in the purging erate men the empress dowager has gone over to the Boxers, bag and baggage, and that the powers have been forced to co-operate in the restoration of order in Pekin, even if the services

of order in Frain, even if the services of Russian troops are required.

Tallyrand's "Good Europeans" have reappeared upon the scene and have dropped their jealousies and suspicions. A mixed force of two thousand marines will be inadequate if Pekin should be in the possession of the Boxers, and if the insurrection spreads from province to province. The Russians will go in to province. The Russians will go in with a European mandate and probably will have as many reasons for remaining as the English have found useful and necessary in Egypt.
